

Superb Soil Conditioner Additive

FOR COMMERCIAL USE ONLY

PRECAUTIONS

Avoid getting in eyes or on skin. The use of side shield safety glasses and gloves is recommended. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, remove contaminated clothing. Wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water for 15 minutes. If irritation persists, obtain medical attention. See MSDS for further information.

DISCLAIMER

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the users responsibility to conduct a trial application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. When mixing with other spray materials a jar compatibility test is recommended.

CONDITIONS OF SALE

UAS of America Inc. warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on the label when used in accordance with directions under normal use conditions. Crop Injury, product use ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of UAS of America Inc. Product # 41

How Does SSP Work?
Soil colloids are generally negatively charged. The SSP carries a positive charge. When added to spray water, it disperses throughout positively charging the spray water. The positively charged water seeps into the soil via rain or light irrigation. These positively charged ions surround the negatively charged soil colloid allowing it to break apart from other soil colloids, thus loosening hard soil.
Storage: Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).

GUARANTEED ANALYSIS:

Soil Amending Ingredients:

Ammonium Laureth Sulfate 60%

Total Other Ingredients 40%

Derived from: Ammonium Laureth Sulfate

*****SSP Should not be used as a post treatment after Sowing Seeds.*****

DIRECTIONS FOR USE:

AGRICULTURAL SOIL: Apply 12 oz per acre, with sufficient water to cover. Broadcast directly onto soil work into soil lightly by turning soil. Apply with generous amount of water or just before rain. Irrigate if available directly following application. Extreme hardpan may require repeat applications. Using stronger mix ratio has shown no less or no more effectiveness.

GREENS AND TEES (LAWNS): Apply 1 oz with sufficient water to cover, per 1000 sq ft. Broadcast directly onto soil. Extreme compaction may require repeated applications. Can be mixed with most other soil amendments. Jar-test to ensure compatibility. Apply with generous amount of water or just before rain. Irrigate if available directly following application. *Repeat bi-monthly in a regular program *

FAIRWAYS & COMMERCIAL TURF: Apply 44 oz with sufficient water to cover, per acre. *Repeat bi-monthly* SSP is safe, non-toxic, biodegradable, and environmentally friendly. Can be used as a preventative in a regular program at the rate of 1 gal to 30 acres. Use also to prevent pre-emergence crusting at the rate of 1 gal to 30 acres. Can be mixed with most other soil amendments.

***Highly concentrated DO NOT over apply. *** To ensure compatibility with foreign spray mixes, a jar compatibility test is recommended before mixing with other products other than water in the tank. Always fill tank with water first, then begin applying CROPMASTER products while tank is circulating.
*NEVER MIX CONCENTRATES DIRECTLY TOGETHER *
