

Plant Energizer™

Plant Energizer™ is a specially designed liquid super charger, which energizes the plant / turf's metabolism. Its unique balance of plant nutrients supplies just the right amount of nutritional requirements for optimum growth, while the proprietary active ingredients in plant energizer increases the metabolism for dividing plant cells, while providing the plant with its essential need for phosphorus.

TURF: Plant Energizer™ can be used on weak turf, Turf that is either thin or has sustained damage from other elements and is in need of growth and healing. Plant Energizer™ will greatly speed up this healing / thicken process.

AGRICULTURE: Plant Energizer™ will help in seed development, flowering and formation of fruit. When applied at those stages it will speed up its metabolism, which will speed up those processes.

STORAGE

Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).

Dispose of Waste Material according to local, state, and Federal environmental laws and regulations.

CAUTIONS

WARNING does not mix with low ph solutions or high calcium or carbon mixes.

DISCLAIMER

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the users responsibility to conduct a trail application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. When mixing with other spray materials a jar compatibility test. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water. If irritation persists, obtain medical attention.

GUARANTEED MINIMUM ANALYSIS

TOTAL NITROGEN (N)	6.0%
6% AMMONIACAL NITROGEN	
AVAILABLE PHOSPHATE (P205)	19.0%
SOLUBLE POTASH (K2O)	0.0%

DERIVED FROM: ORTHOPHOSPHATE ACID AND AMMONIA PHOSPHATE
Humic, fulvic acids and organic carbon

COMPATIBILITY

Test-To ensure compatibility with foreign spray mixes, a jar & Crop to be Sprayed, compatibility test is recommended before mixing with products other than water in the tank. Not compatible with High concentrated Calcium, carbon or low pH mixes

APPLICATION

TURF: Apply at a rate of 3-6 oz per 1,000 sq. ft. (1-2 gallons per acre), in sufficient water for complete coverage. Apply every 12-14 days. In situations where specific deficiencies have been noted the frequency of application should be shortened to repeated every 7 days. PLANT ENERGIZER™ is a specifically designed high phosphate concentrate, formulated with a high phosphorus need for turf, plant, tree or seed.

PLANT ENERGIZER™ is a true foliar product designed to be applied at low spray volumes (35-45 gpa) for uptake by the plants stomata. This can be Achieved by using the flat spray tip (02-04 tip). Allow 4-5 hours to dry on the leaf before irrigation.
SHRUBS: Apply 2 qts. PLANT ENERGIZER™ with sufficient water to cover per acre. Moisten both sides of the leaves only to the point of run-off.
WARNING: Slightly Acidic Material. Wear rubber gloves and splash proof goggles. *Avoid skin and eye contact: Immediately wash affected area with water.

CAUTION: DO NOT MIX WITH HIGH CONCENTRATED CALCIUM, CARBON MIXES

WARRANTY

BUYER ASSUMES ALL RESPONSIBILITY FOR USE, STORAGE, HANDLING AND DISPOSAL OF THIS PRODUCT WHEN NOT IN ACCORDANCE WITH LABEL DIRECTIONS. UAS of AMERICA, INC AND ITS DISTRIBUTOR'S LIMIT OF WARRANTY EXTENDS ONLY TO REPLACEMENT OF DEFECTIVE PRODUCT.
**Ingestion: If patient is conscious, give large quantities of water. Do not induce vomiting. Call physician.*
