

Excel™

EXCEL is a multi-purpose non-ionic adjuvant and compatibility agent designed to increase the performance and effectiveness of foliar fertilizer, herbicides, insecticides, or other chemicals. It delivers better wetting, sticking, and absorption of spray material.

EXCEL works to break down water size (DYNES) giving a more even spray layer and reducing water droplet formations on the leaf. This will reduce the chances of prism burn from water droplet formations on leaves.

STORAGE

Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5C (41F) and 25C (77F).

Dispose of Waste Material according to local, state, and Federal environmental laws and regulations.

CAUTIONS

Because of the nature of Excel™ care should be taken when mixing with other chemicals. Excel™ will increase their performance and potency. EXCEL should be added to the spray tank last, after the water, to reduce foaming.

DISCLAIMER

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the users responsibility to conduct a trial application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. When mixing with other spray materials a jar compatibility test. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water. If irritation persists, obtain medical attention.

GUARANTEED MINIMUM ANALYSIS

Polyethylene Glycol Nonylphenyl Ether 80%
Other Ingredients 20%

DERIVED FROM: Non-Ionic Surfactants

COMPATIBILITY

A jar compatibility test is recommended before mixing with any other product other than water in the tank to insure compatibility with foreign spray mixes. EXCEL™ is compatible with most products on the market.

APPLICATION

Apply in the early morning or late afternoon, never in the heat of the day

Following are suggested application rates for EXCEL:

Foliar applications	1/4 pt per acre
Herbicides	1/4 pt per acre
Insecticides	1/4 pt per acre
Defoliantes	1/4 pt per acre
Tank mixes	1 pint per 200 gal of solution

EXCEL should be added to the spray tank last, after the water, to reduce foaming.

WARRANTY

BUYER ASSUMES ALL RESPONSIBILITY FOR USE, STORAGE, HANDLING AND DISPOSAL OF THIS PRODUCT WHEN NOT IN ACCORDANCE WITH LABEL DIRECTIONS. UAS OF AMERICA, INC AND ITS DISTRIBUTOR'S LIMIT OF WARRANTY EXTENDS ONLY TO REPLACEMENT OF DEFECTIVE PRODUCT. **Ingestion: If patient is conscious, give large quantities of water. Do not induce vomiting. Call physician.*
